

## Kantor & Kantor, LLP Promotes Timothy Rozelle to Partner

By Kantor & Kantor LLP | Published on: October 13, 2023

Northridge, Calif., October 13, 2023 -- [Kantor & Kantor, LLP](#), continues to build an exceptional team of superbly talented and diverse lawyers across their practice areas to carry the firm forward. Building from within, K&K veteran [Tim Rozelle](#) epitomizes what distinguishes our prestigious attorneys and our value offering as a whole; top-notch legal expertise combined with an unparalleled care, concern, and devotion to the clients he serves.

Tim, a UC Davis Law Graduate, joined the firm as an associate attorney in 2014 after working for the California Department of Insurance. When there he was a part of the Department's efforts to enforce insurers' compliance with California's mental health parity laws requiring insurers to provide coverage for applied behavioral analysis (ABA) treatment for adolescents with an autism spectrum disorder diagnosis.

With significant professional experience in the field of health benefits, Tim has spent over a decade fighting on behalf of clients who have been wrongfully denied cancer treatment, surgical, mental/behavioral health, and prescription drug benefits by insurance carriers. He also focused a large amount of his practice on assisting individuals who had been denied proton beam radiation therapy (PBT) treatment for cancer.

In 2019, Tim started the [Proton Therapy Law Coalition](#), a group specifically formed to bring providers, patient advocates, patients, and attorneys together to challenge PBT denials wherever they may arise across the country. The Coalition currently includes more than 100 members who have undertaken nationwide efforts to combat insurance companies' denials of PBT. The efforts of the Coalition have led to legal victories in the courts for consumers seeking proton therapy indicating that the tide might be turning on these denials.

Tim has recently begun to devote a portion of his energy toward fighting bad faith denials of long-term care and disability insurance claims. Long-term care insurance carriers in particular engage in conduct that takes advantage of the elderly and places immense strain on the elderly insured's family members when insurers decide not to pay for their covered home health care benefits.

Lisa Kantor said, *"I am thrilled that Tim Rozelle has been promoted to partner at Kantor & Kantor. Tim's skill, hard work, dedication to our clients, and tireless leadership in all things IT-related made this a very easy decision."*

*"More than in any other professional environment I have been in, here at Kantor & Kantor I feel most like I can be myself. I can work towards a higher cause and purpose in the service of our clients and do so with other like-minded people. This firm has been able to provide the rare combination of allowing me to work towards a fulfilling (as opposed to empty and dead corporate legal job) legal career while working with other lawyers whose values and character I can truly admire and respect. And for that I am very grateful,"* said Mr. Rozelle.

You can reach Mr. Rozelle via email at [trozelle@kantorlaw.net](mailto:trozelle@kantorlaw.net) or call our Northridge, California head office at (818) 886-2525.
